

"FENDING", INNOVATION AND EXCELLENCE

A large, dark blue, circular buoy with a textured, ribbed surface is shown in the foreground. A thick, grey rope is tied around the top of the buoy. The buoy is attached to a white structure, likely part of a boat. The background is a clear blue sea under bright sunlight.

2017

Plant Facility

Ocean fenders new factory of 13,000m² in Pernik, is the biggest manufacturing plant for fenders in the world, setting the ground for Ocean to become the leading brand in the fending industry!

Superior Quality

Lifetime Performance

Maximum Protection

Extensive Quality Tests

Exclusive Design

Ultimate Consistency

About Us

Since 1985, OCEAN was the first in the world to design and produce the unique range of our Solid boat fenders, bow and stern fenders made from Flexible Integral PU Skin Foam.

After being more than 32 years in the boat fending market, continuously introducing new products according to the needs of our partners, we are now proud to claim the top spot for the world's biggest manufacturing plant for boat fenders.

Being regarded as the most innovative brand in the fenders' market, we shall continue to manufacture... **THE BEST BOAT FENDERS** in the world.

The future of boat fending is filled with OCEAN

OCEAN Limited Warranty

WHAT THIS WARRANTY COVERS

OCEAN warrants its products to be free of defects in workmanship and material under normal use and service and when used for the purposes and under the conditions for which they are intended.

WHAT THIS WARRANTY DOES NOT COVER

This warranty does not apply to any problem caused by:

- 1) unusual conditions such as severe storms, hurricanes, extreme temperatures, UV light breakdown, or ultraviolet rays. Also, the warranty does not cover cosmetic flaws that result from normal wear and tear under ordinary use and do not affect the performance or use of the product.
- 2) intentional damage by people
- 3) cuts, punctures, or exposures to chemicals that degrade or discolor plastics
- 5) abuse, neglect, accident, misuse, alteration, unauthorized repair, improper handling, or improper use
- 4) improper inflation of any product, including under or over inflation (please refer to inflation guide for maximum inflation values)

Because it is impossible for OCEAN to know the exact purposes for which you acquired the OCEAN product or the uses to which you will put the product, OCEAN shall not be responsible for the selection of the product for its installation and use. While every reasonable effort has been made to insure that you will receive a product that you can use and enjoy, OCEAN does not warrant that the product will meet your requirements.

NO WORDS, ACTIONS, DESCRIPTIONS, MODELS, SAMPLES

OR OTHER SELLER CONDUCT WILL CREATE AN EXPRESS WARRANTY BEYOND THE TERMS DESCRIBED HERE.

HOW LONG COVERAGE LASTS

The warranty on SOLOVELA, TYPE A, MATCH 60 & 80, PVM1, PVM2, BLADE and U, L & R SERIES lasts as long as the original purchaser owns the above referenced OCEAN product and can prove the origin of can prove the origin of purchase. This warranty terminates if the original purchaser sells or transfers the product.

WHAT OCEAN WILL DO

Obligation under this warranty is limited to repair, replacement, or credit for the defective product at the discretion of OCEAN

HOW TO GET SERVICE

Purchaser should return the defective product to the location where the purchase was made, along with a copy of the original sales receipt documenting the date of purchase and the OCEAN item number, as well as a description of the conditions in which the product was used and the alleged defect MUST accompany all warranty claims.

OCEAN shall have the right to inspect said product and Purchaser shall, if requested, return the defective product to OCEAN.

OCEAN is not responsible for postage on the return of defective products. No return merchandise will be accepted without prior authorization.

OCEAN Buoys **R SERIES**

*A versatile buoy for
the most adverse
conditions.*

**available upon
request*

**Suitable colour for
European Fishing Grounds**

Widely popular among commercial fishermen for its durability but also among the recreational boats too

Suitable for

- Rock solid ropehold with reinforced material
- Simple valve for convenient inflation
- Seamless construction
- UV resistant
- Most ribs than any other buoy in the market
- Unique Glossy finish

R Series are **Heavy Duty Buoys** in which **the rib-reinforced rock solid ropehold** is made in such way, in order to provide **extra strength and durability**. A versatile buoy for **the most adverse conditions**. Marking gear for ocean, sea, river or lake, it is becoming **widely popular among commercial fishermen** for its durability but also among the recreational boats too. They are one-piece made, which means that **no parts are attached together** to form the finalized buoy, and has consistent wall thickness and UV resistant.

Suitable for any use and any kind of boat from 20-80ft, the Ocean Buoys "fends" proudly.

- Inflation pressure: 2.1lbs/0,15bar at 68°F/20°C
- Material: Plastisol PVC
- Production process: Single procedure Rotational moulding

MEGA YACHT FENDERS

Suitable for

OCEAN

Solid Fenders

The Ocean Solid fenders range is what distinguishes the brand from everyone else.

These unique and superior quality products are what sets Ocean to be a step above the rest. Being the only brand that can provide you with these exclusive Italian design and patterned fenders, that are made from flexible integral skin foam technology, which is only used by Ocean for the production of fenders! They have the best shock absorption and life performance than any fender in the market, being the only one **THAT CANNOT DEFLATE**.

The range includes fenders for all different applications, for bow (PVM1&Blade) and stern protection (Match 60&Match 80) as well as for regular cylindrical type fenders, which are our Type A clip on fenders, available in 4 different sizes.

Finally, the fender that sets you above everyone else in the marina is a class by its own. Our Solovela, as its Italian origin name suggest, it is designed exclusively for sailboats. It refers to the sailboats that wish to be looked upon for their superior taste when it comes to fending.

Optimum Shock Absorption & Lifetime Performance

SOLOVELA solid fender serves as a multipurpose boat fender and it is the best in its class by offering optimum shock absorption and lifetime performance. It is **manufactured from Flexible Integral PU Skin Foam technology**, so it is a boat fender that cannot deflate. In addition it has remarkable durability having been tested under the pressure of 12 tons per dm².

The fenders' wide surface area ensures a better distribution of the load and reduction of the specific pressure per cm². SOLOVELA solid fender stands out for its innovative shape and exclusive design, specifically for sailboats, which combines ergonomomy and protection. By offering very easy fitting on the sail boat's lifeline and requiring no stowage while sailing, it's always in place and ready to use. It remains steady on the lifeline even with strong wind, without having to worry about being dropped into the sea.

You can also use the SOLOVELA solid fender as a boarding step or as a backrest for the captain during sailing. SOLOVELA solid fender is supplied with a navy blue or sand color, UV resistant zip-on cover and a 3 m white polyester line. The fender has one through hole with nylon fiber reinforced bushes for easy and safe installation with the supplied line.

- Tested under 12 tons per dm².
- Can also be used as a step and as a backrest.

The first and unique clip-on solid fender

Type A clip-on boat fender is the first and unique solid fender, which clips on the guardrail, and is manufactured from Flexible Integral PU Skin Foam technology. It is a boat fender that cannot deflate. It offers the best shock absorption and lifetime performance among other boat fenders, providing exceptional protection.

It has impressive durability, **as this fender cannot deflate no matter the pressure**. It is always in place and ready to use in seconds, and it remains steady even with strong wind. There is no need for fender baskets or other inconvenient stowage and they don't get in the way on the side decks.

It can be used for the protection of the boat **both horizontally and vertically**. The Type A clip-on solid fender has one through hole with nylon fiber reinforced bushes for easy and safe installation.

- The first and unique clip-on fenders
- Can be used both horizontally and vertically

OCEAN Keychains fenders are elegant miniatures of the OCEAN fender series. The logo is engraved in the keychain fender, making it a way more aesthetic choice than a cork float. The amount of keys that it can hold are more than any other keychain fender in the market, so you will not lose your keys in the sea.
